REF : PRC Action No. DD/S-174-60 (Amendment No. 1, Project [REDACTED])

25X1A6b

1. The referenced PRC Action, as approved 26 May 1960, authorized construction of a twelve-unit apartment-type structure, employing available FY-1960 funds, and an additional ten (10) separate single family housing units in FY-1961. Both actions were subject to the availability of funds and the appropriate clearance with the Bureau of the Budget.

2. The provision of the funds and the necessary clearance for the twelve-unit apartment building has been accomplished and a contract was let for the construction of this facility in June 1960.

3. The housing situation at the [REDACTED] station still remains critical and it is desired to go ahead now with the building of ten (10) more houses. Funds for the construction of these houses were included in the Office of Communications' FY-1961 Operating Budget. The Bureau of the Budget has been made aware of this proposed construction since this item appears in the separate construction schedule and also was specifically mentioned in the "History of the [REDACTED]" that was prepared for them. If these prior contacts with the Bureau of the Budget cannot be interpreted as constituting proper clearance, it is requested that you take this action and advise this office when the approval has been received.
